NOTE:

- More Holy communions can be added in as we grow more familiar with new routines
- D refers to Digital. Churches who have the technology can decide to meet together and stream all or part of a service. This could be the whole service as will be on YouTube, or a musician might play whilst others listen and the online could be the sermon and prayers etc. Alternatively, churches might decide to worship at home using the online material etc.
- Spaces for readers (non-preachers) and editing the online worship still need to be completed
- Conf refers to Methodist Conference and the Conference service can be streamed on that day
- We are in a time of recovery and a sense of finding our way in this new landscape. Don't forget to pray!
